A comparison between zinc polycarboxylate and glass ionomer cement in the orthodontic band cementation, Banu Dincer / Aslihan M. Ertan Erdinc, No. 3, p 285

A comparative evaluation of oral midazolam with other sedatives as premedication in pediatric dentistry, Neerja Singh / R.K. Pandey / A.K. Saksena / J.N. Jaiswal, No. 2, p. 161

Amelogenesis imperfecta: a scanning electron microscopic and histopathologic study, Figen Seymen / Basak Kiziltan, No. 4, p. 327

A new approach in positioning teeth for dental prosthetics using lateral cephalometric, trans-cranial radiographs, and the Denar-Witzig articulator: a case of hypodontia in an adolescent patient, Anas Chapra / G.E. White, No. 1, p. 13

Apexification of primary teeth: a treatment option, Marta Lua Pimentel Winz Almeida / Licinia Maria Damasceno / Laura Guimaraes Primo / Maristela Barbosa Portela, No. 4, p. 351

Artificial formed caries-like lesions around esthetic restorative materials, Nuray Attar / Alev Onen, No. 3, p. 289

B

Bacterial, behavioral and environmental factors associated with early childhood caries, Francisco J. Ramos-Gomez / Jane A. Weintraub / Stuart A. Gansky / Charles I. Hoover / John D.B. Featherstone, No. 2, p. 165

Behavior of pediatric dental patients throughout the course of restorative dental treatment in a private pediatric dental practice, Warren A. Brill, No. 1, p. 55

C

Case report on a rare lesion in an HIV-infected child: hairy leukoplakia, Maristela Barbosa Portela / Glória Fernanda Castro / Edja Maria Costa / Arley Silva Júnior / Eliane Pedra Dias / Ivete Pomarico Ribeiro de Souza, No. 4, p. 401

Cephalometric characteristics of bimaxillary dentoalveolar protrusion in early mixed dentition, Hung-Huey Tsai, No. 4, p. 363

Class II division 1 Malocclusions; The subdivision problem, Eman Alkofide, No. 1, p. 37

Clinical evaluation of a patient with single maxillary central incisor, Youko Kamasaki / Satoshi Fukumoto / Kazumi Kubota / George Goto, No. 2, p. 181

Clinical evaluation of Carisolv in the chemico-mechanical removal of carious dentin, A.K. Munshi / Amitha M. Hegde / Priya K. Shetty, No. 1, p. 49

Combining functional appliances in the straightwire system, Derek Mahony, No. 2, p. 137

Compositional and structural changes of human dentin following caries removal by Er,Cr:YSGG laser irradiation in primary teeth, Mozammal Hossain / Yukio Nakamura / Yoshishige Yamada / Yoshiko Murakami / Koukichi Matsumoto, No. 4, p. 377

Conscious sedation in the 21st century, Hani Eid, No. 2, p. 179

Correlation between oral parafunction and temporomandibular disorders and emotional status among Saudi children, Najlaa Almoudi, No. 1, p. 71

D

Density and diameter of dentinal tubules of first and second primary human molars - comparative scanning electron microscopy study, Henrique Castillhos Ruschel / Orlando Chevitarese, No. 3, p. 297

Dental management of severe dentinogenesis imperfecta in a mild form of osteogenesis imperfecta, L.X.G. Stephen / P. Beighton, No. 2, p. 131

Dentigerous cyst associated with an upper permanent central incisor case report and literature review, Maria da Graça Naclério Homem / Wilma Alexandre Simões / Maria Cristina Zindel Deboni / Israel Chilvarquer / Andreia Aparecida Traina, No. 2, p. 187

Developmental changes of mandibular permanent canines and premolars in early mixed dentition, Hung-Huey Tsai, No. 1, p. 61

E

Early detection of dens evaginatus appearing on the premolars and clinical management: histological study, T. Kawata / K. Tanne, No. 2, p. 199

Effect of multiple application of dentin bonding agent on marginal integrity of resin composite, T. Asakawa / A. Manabe / K. Itoh / C. Tani / M. Inoue / R. Sasa, No. 3, p. 257

Effect of serial extraction alone on crowding: relationship between closure of residual extraction space and changes in dentition, Toshihiro Yoshihara / Yuko Matsumoto / Junichi Suzuki / Tadashi Ogura, No. 2, p. 147

Electrocoagulation extends the indication of calcium hydroxide pulpotomy in the primary dentition, H. Sasaki / T. Ogawa / M. Koreeda / T. Ozaki / S. Sobue / T. Ooshima, No. 3, p. 275

Estimating MEDLINE's identification of randomized control trials in pediatric dentistry, Julius Park / Richard Niederman, No. 4, p. 395

Evaluation of visual, explorer, and a laser device for detection of early occlusal caries, Azza A. El-Housseiny / Hana Jamjoum, No. 1, p. 41

Ewing's sarcoma of the mandible: a combined approach to treatment, Allen Fred Fielding / Rochelle Lindemeyer / Julie Wood-Harris / Michael J. Hartman, No. 4, p. 409

External root resorption of the maxillary permanent incisors caused by ectopically erupting canines, Rie Kojima / Yo Taguchi / Hiroaki Kobayashi / Tadashi Noda, No. 2, p. 193

F
G

Garre's osteomyelitis associated with a fistula: a case report, Marcelo Goncalves / Daniel Pinto Oliveira / Edmar Oliveira Oya / Andréa Goncalves, No. 3, p. 311

Granular congenital cell tumor in the newborn: a case report, Mohammad Salem Belal / Hamijeta Ibricevic / John Patrick Madda / Waleed Al-therban, No. 3, p. 315

H

Histological evaluation of electrosurgery and formocresol pulpotomy techniques in primary teeth in dogs, Omar El-Meligy / Medhat Abdalla / Shar El-Baraway / Magda El-Tekya / Jeffery A. Dean, No. 1, p. 81

Hypohidrotic ectodermal dysplasia: dental, clinical, genetic and dermatoglyphic findings of three cases, B. Kargül / T. Alcan / U. Kabalay / M. Atasu, No. 1, p. 5

I

Impacted primary mandibular central incisors: case report, Salwa M. Darwish / Fouad S. Salama, No. 4, p. 347

Influence of prophylaxis on the microleakage of sealants: *in vitro* study, Ana Beatriz Alonso Chevitarese / Orlando Chevitarese / Ivete Pomarico Ribeiro de Souza / Roberto Braga de Carvalho Viann, No. 4, p. 371

Influence of socioeconomic level and dentifrice brand on the oral hygiene habits and the fluoride dentifrice ingestion, Regina M. Puppin Rontani / Ariana Belotto Correa Kassawara / Celia Regina M. Delgado Rodrigues, No. 3, p. 319

Interdisciplinary rehabilitation and prevention in a case with early and extensive loss of primary teeth, K. Ch. Huth / T. Sagner / R. Hickel / I. Rudzki-Jason, No. 2, p. 125

Intermaxillary tooth size discrepancies among different malocclusion classes: a comparative study, Eman Alkofide / Hayder Hashim, No. 4, p. 383

Intraoral craniofacial manipulation condyle into the middle cranial fossa, Noor Al-Sulaiti / G.E. White, No. 1, p. 21

J
K
L
M

Microleakage and penetration depth of three types of materials in fissure sealant: self-etching primer vs etching. An *in vitro* study, D. Gillet / J. Nancy / V. Dupuis /G. Dorignac, No. 2, p. 175

Microleakage of composite resin restoration in cavities prepared by Er,Cr:YSGG laser irradiation and etched bur cavities in primary teeth, Mozammal Hossain / Yukio Nakamura / Yoshishige Yamada / Yoshiko Murakami / Koukichi Matsumoto, No. 3, p. 263

Mobius syndrome: a case report, G. Aren, No. 2, p. 207

Multidisciplinary evaluation and clinical management of mesiodens, A.Giancotti / F. Grazzini / F. De Dominicis / G. Romanini / C. Arcuri, No. 3, p. 233

N
O

Oral complications associated with the treatment of pediatric neuroblastoma: a case study, Shera A. Sims / Gerry J. Barker / Andrew Gilman, No. 4, p. 401

Oral diagnosis of Behcet disease in an eleven-year old girl and the non-surgical treatment of her gingival overgrowth caused by Cyclosporine, J. Irshied / E. Bimstein, No. 1, p. 93

Oral-facial-digital syndrome, Type I: A case report, N.M. King / A.M.E. Sanares, No. 2, p. 211

Oral health status in Greek children and teenagers with disabilities, G. Mitsea / A.G.Karidis / C. Donta-Bakoyianni / N.D.Spyropoulos, No. 1, p. 111

Oral manifestations of congenital neutropenia or Kostmann syndrome, Efisio Defraia / Andrea Marinelli, No. 1, p. 99

P

Panoramic radiographic findings of the mandibular growth from deciduous dentition to early permanent dentition, Hung-Huey Tsai, No. 3, p. 279

Pediatric oral lesions: a 15-year review from São Paulo, Brazil, Fabrício Bitu Sousa / Adriana Etges / Luciana Corrêa / Ricardo Alves Mesquita / Ney Soares de Araújo, No. 4, p. 413

Penetration of the mandibular condyle into the middle cranial fossa, Patricia DeFabianis, No. 1, p. 29

Polyethylene fiber tape used as a post and core in decayed primary anterior teeth: a treatment option, Clarissa Lopes Vieira / Cecília Cláudia Costa Ribeiro, No. 1, p. 1

Preventive effects by intensive restorative treatment against caries in children, Takanobu Morinushi / Kouichiro Inoue / Shozaburo Toyoshima / Mayumi Morinushi / Yosiko Araki / Kiyoshi Kondo, No. 4, p. 357

Primary triple teeth: histological, CT study of morphology and report of two cases, Luz Aguilo / Montserrat Catala / Amando Peydro, No. 1, p. 87

Pulpal response to different pulp capping methods after pulpal exposure by air abrasion, Lina Maria Cadenas-Duque / Makoto Yoshida / George Goto, No. 3, p. 269

Pulse oximetry: a diagnostic instrument in pulpal vitality testing, A.K. Munshi / Amitha M. Hegde / Sangeeth Radhakrishnan, No. 2, p. 141

Q
R

Rehabilitative treatment after unsuccessful teeth replantation: a case report, Paulo Floriani Kramer / Sady Horst / Joice König / Eduardo Galia Reston / Ernani Calvete, No. 2, p. 119

Reposition of intruded permanent incisor by a combination of surgical and orthodontic approach: a case report, Ki-Taeg Jang / Jung-Wook Kim / Sang-Hoon Lee / Chong-Chul Kim / Se-Hyun Hahn / Franklin García-Godoy, No. 4, p. 341

Retention of composite resin restorations in class IV preparations, Hani Eid, No. 3, p. 251

S

Salivary *Streptococcus mutans* and *lactobacillus sp* levels in cardiac children, M.C.M.B. Torres / M.E. Ramos / T.L. Coelho / S. Harari, No. 1, p. 103

Seckel syndrome: report of a case, Figen Seymen / Bahar Tuna / Hulya Kayserili, No. 3, p. 305

Submerged teeth, K. Antoniades / S. Kavadia / K. Milioti / V. Antoniades / E. Markovitsi, No. 3, p. 239

Surgical treatment of mucocele in an 11 month-old baby: a case report, Robson Frederico Cunha / Ana Elisa De Mello Vieira / Danjela Maria Carvalho Pugliesi / Monique Guimaraes Correia / Marcelo Macedo Crivelini, No. 2, p. 203

T

The application of fiber core posts in restoring badly destroyed primary incisors, Aly A. Sharaf, No. 3, p. 217

The diastemas in deciduous dentition: the relationship to the tooth size and the dental arches dimensions, M. Facal-García / J. de Nova-García / D. Suárez-Quintanilla, No. 1, p. 65

The effect of restorative treatment on children's behavior at the first recall visit in a private pediatric dental practice, Warren A. Brill, No. 4, p. 389

The morphology of the mandibular antegonial notches and facial symmetry, Fares Al-Sehaibany / Omar Salem / Brian Preston, No. 2, p. 155

Treatment of condylar fractures in children and youths: the clinical value of the occlusal plane orientation and correlation with facial development (case reports), Patricia Defabianis, No. 3, p. 243

Trismus in a 6 year old child: a manifestation of leukemia?, Joseph Katz / Benjamin Peretz, No. 4, p. 337
